Prof. Syed Arshad Hussain
Department of Physics
Tripura University
Suryamaninagar - 799 022
Tripura, India

Dear Prof. Syed Arshad Hussain:

I would like to invite you to visit my laboratory and Prof. Matsumoto's laboratory during March 1 – March 20, 2018 as Visiting Scientist under the Cooperative Science Program of Yamaguchi University, Japan. This visit will enable us to make discussions on our cooperative research and plan future direction. I would also like to invite you to present a seminar in our department based on your recent research work. Prof. Matsumoto is also planning your seminar at Osaka University. Please give one more presentation during your visit to Osaka. Yamaguchi University will be happy to take care of your accommodation, honorium, travel including international travel between India and Japan, and other local expenses during your stay. Thank you very much.

Sincerely

A handwritten signature in black ink, reading 'Jun Kawamata', is positioned above the printed name and address.
