To Whom It May Concern

Dear Professor Guha:

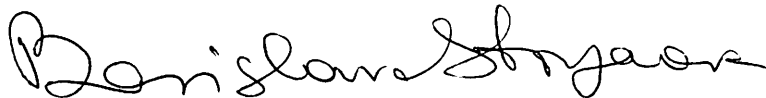

Dr. Earle Williams is happy to host you to spend the period from 27th May 2019 (Monday) to 28th June 2019 (Friday), 2019 visiting the Department of Civil and Environmental Engineering at the Massachusetts Institute of Technology as Visiting Scholar. You will be provided with desk space, access to MIT libraries, and other resources. The purpose of this visit is to meet with Dr. Williams and his lab members and to discuss the research topic of geophysical inversion: the organization of ELF data sets ingested from many sites worldwide on the MIT SuperCloud site, and with the multi-station inversion and interpretation of such data sets for the global lightning activity.

MIT will not provide a salary or stipend. However, as permitted under the B-1 regulations, MIT will reimburse your airfare and provide you with a per diem allowance to cover incidental expenses related to your visit.

Upon arrival at the airport or border in the United States, you must present this letter to the immigration inspector along with your passport. Please be sure that your admission stamp in your passport is marked **B-1**, as this notation is needed in order for you to obtain your MIT appointment.

Please contact me if you have any questions about the logistics of this visit.

Sincerely yours,

Borislava Stoyanova, PHR
